

CHILD DEVELOPMENT, B.A.

Mission

The Bachelor of Arts degree program in Child Development is to provide working adult students the opportunity to complete a quality college degree via a schedule and format especially designed to meet their unique needs. This curriculum will help support student development toward a personal commitment to improving:

1. the lives of individuals and families in their professional endeavors
2. the lives of community members
3. their personal family life.

Program Learning Outcomes (PLO)

1. Identify and describe normative similarities and differences of intellectual, emotional, social and physical theories at each developmental stage from prenatal through adolescence.
2. Evaluate the effects of family systems on the development of children and adolescents.
3. Identify and discuss scientific research in understanding different philosophical views of growth and development both historic and current.
4. Assess research of theoretical and appropriate practical elements of parenting to facilitate decisions for a healthy environment for children and adolescents.
5. Evaluate the effects of society and culture upon the family microsystems, family types and the subsequent macrosystems with which they co-exist.
6. Identify career paths and professional areas of service within the child and adolescent profession.

Program Prerequisites

Incoming students are required to have completed the following courses with a grade of C or better prior to acceptance into this program:
