APPLIED PSYCHOLOGY, B.A.

Program Learning Outcomes

Students who complete the Bachelor of Arts in Applied Psychology will be able to:

- Demonstrate a holistic understanding of applied psychology, integrating personal, educational, health, and societal dimensions in their analysis and application of psychological principles. (Holistic Understanding)
- Apply psychological theories, methodologies, and interventions to real-world contexts, effectively addressing contemporary professional challenges and opportunities. (Practical Application)
- Critically evaluate and apply psychological principles to promote positive social change, advocating for ethical and evidence-based practices that contribute to the well-being of individuals and communities. (Social Impact)
- Cultivate social and emotional intelligence skills, demonstrating self-awareness, empathy, and resilience in personal and social interactions, and integrating these skills into their professional practice. (Personal Growth)
- Demonstrate cultural and intellectual humility by recognizing and respecting individual differences and their cultural origins, and effectively navigating diverse and dynamic environments with sensitivity and inclusivity. (Cultural Competence)
- Integrate theoretical knowledge with practical experience through a service-learning capstone, applying psychological principles to address real-world issues and contribute to societal well-being in collaboration with community partners. (Service-Learning Experience)
